We decided to have our home resided. The first decision we made was the toughest. Who do we call? After getting a few estimates and recommendations, we called Renew Home Exteriors. We've never resided in our home before so we weren't sure where to even begin. They made it so simple for us. Not only were they affordable and less costly than the other companies, they also explained everything to us including the different types of siding, color options, financing and what to expect from beginning to end. Once the material was delivered to our house, their crew started working the very next morning. They were efficient, professional, friendly and knowledgeable. We were so impressed with how much detail they put into everything they did and it proved that they were true perfectionists. Our testimonial is that our house looks beautiful! It looks like a completely different house! Thank you to everyone who was involved with our home restoration. We couldn't be happier!

I highly recommend this company. Everyone involved in the project from beginning to end is top notch; Mike, the salesman; Sean, the project manager; Joe, the installation crew's foreman. We didn't have a chance to meet Kip, the Big Boss, but he did right by us. Our home has been transformed. These men helped us bring our dated home out of the 80s & into 2024. Thank you Renew Home Exteriors.

I had a great experience with Renew Home Exteriors. I found them through Angi and was able to quickly book a time for them to come out and look at my siding project. Chris was very thorough in quoting our job. Nice and professional!

A great experience from start to finish! Our sales representative responded to our call quickly and came to visit and offer some ideas and a quote. Roofing and siding on our old garage and porches. Mike had samples of siding & roofing, offering really good products and services, we signed on. In a short time we heard from the project coordinator at Renew Home and they scheduled teams to come out. Needless to say there were 2 projects, but they kept the schedule and kept us informed about each step of the projects. We are so pleased with the final results, and proud to be a satisfied customer! Before and after pictures of their impressive work
